SHIP FINANCE, RESTRUCTURING AND INSOLVENCY DURING THE COVID-19 ERA

The consequential effects of CoVid-19 are being felt in the shipping world now. Banks and shipowners are working together to find solutions and often these good relationships are very hard to maintain if the Owners are struggling to keep things going during these times. What will this mean for the Malaysian shipping and the ship finance sector? What are the restructuring and insolvency options and how does this work? IMSML has put together a group of experts to comment on the potential effects of the crisis. Speakers will also share their perspective on restructuring and the insolvency process in Malaysia.

This webinar should be of interest to shipowners, bankers, lawyers and other interested commercial parties.
